European Commission proposes 500m euros of macro-financial assistance to Jordan

The European Commission on Monday adopted a proposal for a new Macro-Financial Assistance (MFA) programme for Jordan worth up to 500 million euros. The proposed financial assistance aims to provide support to the ambitious Jordanian reform agenda, promoting jobs, growth and investment for the benefit of the people of Jordan, according to a statement from the European Commission. "Today's proposal demonstrates the EU's sustained commitment to supporting Jordan in what remain challenging times. Jordan has made significant strides in its reform process; but addressing economic difficulties requires continued action," Pierre Moscovici, commissioner in charge of economic and financial affairs, taxation and customs, was quoted in the statement as saying. The new programme would build on the two previous MFA programmes through which the EU has disbursed a total of 380 million euros to Jordan since 2011, the statement said.
