## Macroeconomic & Corporate News

### JIEC, China ink deal to enhance cooperation

Jordan Industrial Estates Corporation (JIEC) and the Arab Businessmen Forum in China on Tuesday signed a Memorandum of Understanding (MoU) to enhance cooperation between the two countries and promote Jordan's investment environment. The MoU, signed by JIEC CEO Omar Jwaid and the forum's head Arafat Harahsheh, seeks to underpin the promotional efforts of Jordanian industrial zones, according to a JIEC statement. The signing ceremony was held on the sidelines of the Jordanian participation in the third China-Arab States Expo and fourth China-Arab States Business Summit, which aimed at intensifying the Kingdom's promotional efforts with a focus on the Chinese market, along with exploring potential investment opportunities, mainly in industrial zones. The Arab Businessmen Forum in China, with its widespread relations, serves as an umbrella for Arab and Jordanian investors in China, Jwaid said, pointing out that the agreement would promote the Kingdom's investment climate through expertise exchange and holding a variety of promotional activities.

### QAIA records 4.5 per cent rise in passenger traffic in July

Queen Alia International Airport (QAIA) received 959,560 passengers during July 2019, which constitutes a 4.5 per cent rise compared with the same month in 2018, according to statistics released by Airport International Group on Tuesday. In addition, QAIA registered 7,927 aircraft movements and 9,672 tonnes of cargo, effecting 2.1 per cent and 13.5 per cent increases respectively, a QAIA statement said. Since the beginning of 2019, 5,108,561 passengers passed through QAIA, marking a 6.4 per cent rise in comparison with the same period in 2018, the statement said.

### Aramco says it is ready for two-stage IPO

Saudi Arabia' energy company Aramco is ready for a two-stage stock market debut including an international listing "very soon" but the timing is up to the government, its CEO said on Tuesday. Aramco has said it plans to float around 5 per cent of the state-owned company in 2020 or 2021 in what could potentially be the world's biggest stock sale. The mammoth Initial Public Offering (IPO) forms the cornerstone of a reform programme envisaged by the kingdom's de facto ruler Crown Prince Mohammed Bin Salman to wean the Saudi economy off its reliance on oil. It aims to raise up to \$100 billion based on a \$2 trillion valuation of the company, but investors have debated whether Aramco is worth that much and there have been repeated delays in the launch originally envisaged for 2018.
