

Research and Corporate Finance

Awraq Investments

Research and Corporate Finance

Awraq's Research and corporate finance department is the company's inquisitive eye, independent think tank, and the place where economic, financial, and investment insight gets formalized. Acting as the company's laboratory for new investment concepts, the Research Division focuses its efforts on examining and thoroughly analyzing quality investments opportunities.

The department provides the clients with research reports, private equity and private placement services.

Awraq Investments

Research and Corporate Finance

Research

The department publishes equity research reports covering the Jordanian and Palestinian listed securities, economic reviews and periodic market and corporate reports, in order to assist our clients in the investment decision making process. The Department also provides investors with extensive data on all companies listed on the Amman Stock Exchange.
