Macroeconomic & Corporate News

Gulf-Jordanian Forum calls for Jordan, Iraq to join GCC chamber federation

The participants in the 2nd Gulf-Jordanian Economic Forum in Amman have recommended that Jordan and Iraq join the Federation of Chambers of the Gulf Cooperation Council (GCC), the Jordan News Agency, Petra, reported on Sunday. They said the recommendation seeks to boost the Jordan-Gulf economic development through new partnerships between businessmen. President of the Union of Arab Chambers Nael Kabariti said that the recommendations stressed the necessity of turning challenges into opportunities to enhance the Jordan-Gulf integration process.

Industrial exports to Iraq resume after border reopening

A new convoy of approximately 20 trucks of Jordanian industrial exports is expected to cross the Karameh-Turaibil border crossing to Iraq today, head of the Amman Chamber of Industry, Ziad Homsy, told The Jordan Times on Sunday.

Jordan is resuming the industrial exports to Iraq one month after the reopening of the border crossing between the two countries after the Iraqi forces gained control of the main highway to Baghdad from Daesh militants, following a two-year closure due to security conditions. Earlier this month, Prime Minister Hani Mulki expressed his hope that the reopening of the border would be an opportunity to promote bilateral trade and investment. He called on the private sector in both countries to “cooperate and benefit from this positive step”.

Individuals pay 70% of income to cover increasing debts

Individuals' debts, including loans for consumption and housing purposes, increased by JD1 billion in 2016 without any raise in salaries, President of the Amman Chamber of Commerce (ACC) Issa Murad said on Sunday.

He said that the growing debts have become a source of worry to the national economy as such a situation negatively reflects on the purchasing power of citizens and the outlook of the commercial sector, calling for an official intervention to address the issue, the Jordan News Agency, Petra, reported. Murad, who is also a senator, warned against an increase in the debt ratio, which currently stands at 70 per cent of citizens' annual income.
