The European Bank for Reconstruction and Development (EBRD) on Tuesday signed a multiyear \$265-million loan agreement with the National Electric Power Company (NEPCO), seeking to enhance the integration of renewable sources into the national power network and advance corporate reforms within the company. Signed in the presence of Minister of Finance Ezzeddine Kanakrieh and Planning Minister Mary Kawar, the loan will be used to strengthen the company's balance sheet by addressing its short-term debt, introducing investments aimed at enhancing the capability of the grid to absorb and manage renewable power. On the sidelines of the agreement, a memorandum of understanding was also signed between the government and the bank to set an "ambitious programme" of reforms to NEPCO's governance and operations, EBRD said in a statement, noting that the programme will be supported by grant-funded technical cooperation assignments.
