Macroeconomic & Corporate News

SSC receives over 4,000 subscription applications during first quarter

The Social Security Corporation (SSC) received 4,069 optional subscription applications from Jordanians both inside and outside the Kingdom during the first quarter of this year, compared with 2,719 during the same period last year. According to an SSC statement released on Saturday, the applications were submitted from Jordanians residing in around 40 countries worldwide, the Jordan News Agency, Petra, reported. A total of 38,000 optional subscribers have benefited from pensions, constituting 16.5 per cent of the SSC's total number of pensioners, SSC Media Director Musa Sbeihi said, noting that 1,321 applications for subscription suspensions were received during the first quarter. The SSC also received 3,753 applications for salary amendments.

ASEZA launches world's first diving app offering underwater navigation

The Aqaba Special Economic Zone Authority (ASEZA) on Saturday released the world's first diving app offering personal GPS-based navigation technology underwater. The app that enables divers worldwide to create their personal diving routes and identify Aqaba's diving spots, which will be displayed on their smart phones or tablets and shared worldwide, the Jordan News Agency, Petra, reported. The app provides divers with the world's first interactive 3D underwater maps and virtual diving experience opening up a window of opportunity to inspect more than 20 dive sites in Aqaba, 330km south of Amman, and the five man-made diving sites in the Gulf of Aqaba, ASEZA Spokesperson Abdul Mahdi Qatamin said.

International software development conference concludes in Amman

A software development conference bringing together Jordanian and international speakers to discuss the latest trends in the field and encourage networking concluded on Saturday at the King Hussein Business Park. The two-day event, called Xpand, brought together more than 500 participants and was organised by startup accelerator Propeller Inc, according to a joint statement sent to The Jordan Times. Discussion topics included software architecture, machine learning, chaos engineering, product management, server-less technologies, micro services and information security.
