### IRC, Health Ministry sign agreement to support health system

The International Rescue Committee (IRC) and the Health Ministry have signed a memorandum of understanding (MoU) related to a \$1.35 million donation for the provision of awareness, primary health and reproductive health integrated services in Jordan. The MoU is aimed at activating the partnership and cooperation relationship between the Health Ministry and the IRC for the effective implementation of the project, the Jordan News Agency, Petra, reported. The contribution includes an in-kind donation from the IRC of some \$300,000 for the provision of medical supplies and equipment, purchased with funding from The Pfizer Foundation. The supplies and equipment will contribute to the ministry's COVID-19 response in northern governorates of Irbid and Mafraq, as well as hospitals in Amman, which were established to ease some of the burden on other public health facilities. The support further aims to contribute to health system strengthening in each of Irbid, Ramtha and Mafraq. As part of the contribution from The Pfizer Foundation to the IRC in addition to support from IRC's partner Community Jameel, the IRC has provided eight ventilators, five water purification units for dialysis centres and other essential medical and non-medical equipment to the Health Ministry in support of Jordan's national response to COVID-19. In a statement, Health Minister Feras Al Hawari emphasized the importance of the partnership with the IRC in supporting the health sector in the Kingdom, especially in the face of the COVID pandemic. "We must tackle the situation we are facing at present as a nation and as a global community so it is crucial that we continue to support healthcare services and safeguard frontline health workers in Jordan," Sharifa Sarra Ghazi, IRC Jordan Country Director, said in an IRC statement. "The IRC is fully committed to supporting the Government of Jordan in continuing to strengthen the public health system to respond to health crises and help people whose lives and livelihoods have been devastated by the pandemic," she said.

### More than 1 million register for COVID vaccination — crisis cell

More than one million people have registered on the COVID-19 national vaccination platform, the Crisis Cell at the National Centre for Security and Crisis Management (NCSCM) announced. A total of 1003464 people have registered on the platform so far, the NCSCM noted, the Jordan News Agency, Petra, reported.
